I am free all day Wednesday, aside from my Oklahoma meeting from 9:00-9:30 am.

Are there any issues with meeting with CapturePoint on Wednesday?

Thanks Ian, we are good to go regarding the OneDrive folder, many thanks!. We would still like to meet to discuss methods regarding how best to split components of the information that is to be submitted between the GSDT and the OneDrive folder where CBI is a concern. And to also learn more about what is technically considered to be CBI and what is not.

Many thanks

-Nick

Okay, now that we have the OneDrive folder cleared up, are you all still wanting to meet to discuss? Or was there something specific you all needed to ask in regards to the GSDT or the OneDrive folder?

I don't think anyone still has the link, if you could provide that it would be great.

Thanks again

-Nick

Okay, yes, that is what I thought.

You guys already have a CBI protected OneDrive folder that has been set up. We currently have some site characterization documents that you all have submitted. Do you not have the link to it anymore?

Hey Nick,

Was CapturePoint going by a different name at some point?

Subject: CBI SharePoint Folder and GSDT

Hi Ian, I was curious if you would have some time before Thursday to meet with Krishnan and I to discuss how CPS can best manage submissions with respect to confidential business items and the GSDT. And how we can get connected to an EPA administered SharePoint folder for Region 6 Class VI permit application documents.

Let me know if this week works for you and when is a good time.

Many thanks

Nick
